

Rewards

During the testing period of the Reno 2 you are able to get rewards for finding bugs in our phones. The rewards will work as described in this document. Rewards will only be given to the tester when the submitted bug has been approved by HQ.

How the reward system works:

C-Level: defects, belonging to software bug, but does not affect the release of the version, can be delayed solving. - Reward: 50 RMB.

B-Level: serious, must be solved, can be resolved according to the version plan delay. - Reward: 100 RMB.

A-Level: more serious, the current version must be resolved before it can be released. - Reward: 200 RMB.

S-Level: very serious, can lead to critical quality accidents. - Reward: 500 RMB.

Connection: Cooperate conjunction with the company's participation in a serious network, car Bluetooth and other. - Reward: 100 RMB.

All rewards are in Chinese RMB, when the money will be transferred this will happen at the financial course of that moment.

Reward Rules (Rewarding Samples)

Standard: The number of feedbacks reaches more than 10 issues, of which at least 6 are valid, and if the number of B-Level reaches 3 or more issues, the reward of trial samples can be obtained. Valid questions that exceed this basic requirement are rewarded according to the bonus scheme.

Remarks: The reward plan of presenting the OPPO sample is only applicable to personnel outside the OPPO system, the personnel in the OPPO system will be rewarded according to the bonus rewarding plan. (OPPO agency personnel also belong to the OPPO system, but personnel belonging to the OPPO agency cooperated company are defined as personnel outside the OPPO system)
